

Ride & Drive Package: Use the AT&T Center's Parking Lots for Testing, Demonstrations and More!

The AT&T Center has hosted a number of automobile and tire companies who need a special area for testing and demonstrations.

Companies tell their customers all about the performance of their vehicles. Why not show your customers what your latest models can really do! Host an event in the AT&T Center's parking lot and demonstrate your new anti-lock braking system technology or have some fun showing off a particular model's superior horsepower!

Tire companies also take advantage of the wide open space at the AT&T Center by testing their newest prototypes for durability, safety and more. The AT&T Center has 9 parking lots with over 7,000 paved parking spaces - perfect for your testing needs!

This is a custom package. Call Ace Barajas at 210.444.5147 for special pricing.

Packages May Include:

- Use of Parking Lots
- Space for breakfasts, luncheons or dinners
- Catering
- Staffing
- Complimentary Parking
